Driving Performance with CTV

OBJECTIVE

Balsam brands, the leading Holiday décor e-commerce retailer, wanted to leverage MediaMath's programmatic OTT and attribution solution, in partnership with TVSquared to drive quality site traffic from shoppers looking to decorate their homes for the holidays and drive ROAS

ACTIONS & INSIGHTS

MediaMath partnered with TVSquared to provide real-time attribution measure to measure the effectiveness of Balsam brand reach and messaging across its selected publisher partners. Throughout the campaign, MediaMath's client success team was able to optimized against high performing publishers and devices to achieve higher ROAS

RESULTS

Through our powerful real-time attribution solution with our TVSquared partners, MediaMath was able to drive ROAS by 150% versus the year prior and achieved incremental unique reach over linear by 78%

78%

131K Responses from CTV

Channel	IMPS	Reach Proportion	Avg. Frequency	Unique Reach
OTT	8%	10%	8.4	78%
Linear	87%	87%	10	97%
Overlap	5%	3%	17.4	

Omnichannel drives far better performance, response rates are higher when 2+ channels were running concurrently.

When adding CTV to the media strategy in combination with Display and Video we see some of our highest response rates.
